MID-RISE SCISSOR LIFT

SPRINTER

The top mid-rise lift

With a lifting height of 39", the SPRINTER is your best ally for most of your workshop repairs. The SPRINTER is easy to install and easy to move. A solid steel construction and a premium quality hydraulic system make it enduring and reliable, ready to lift everything, from very small cars up to off-road vehicles and heavy SUVs.

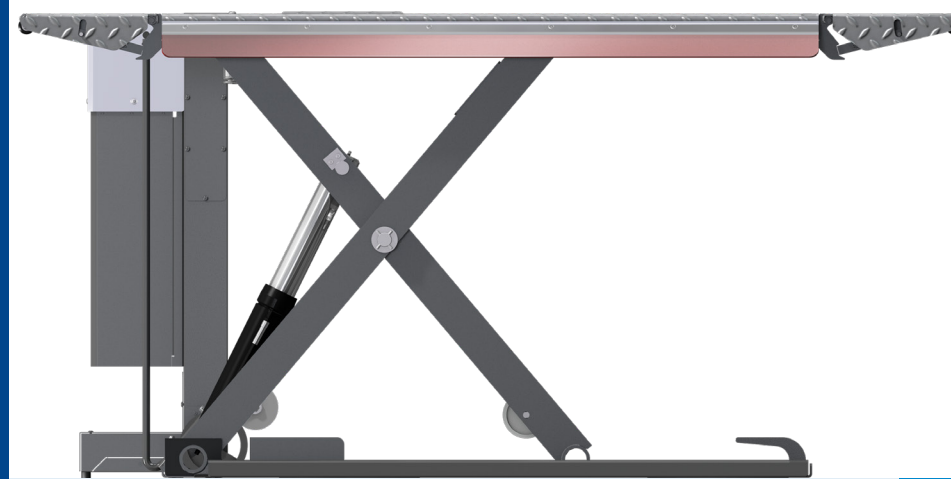

Covers most of your repair shop activities

The SPRINTER is an efficient and mobile solution for tire service, painting, body work and more. **360° access** brings you a vast range of possibilities.

Reliable hydraulic system

The hydraulic system of the lift works with two independent cylinders. The mechanic synchronization is done by torsion bars at the bottom of the lift: No wear, no noise.

- ✓ Can be installed without bolts on almost every flat and solid surface
- ✓ Anti-skid lifting platforms are galvanized and lengthwise adjustable with one hand
- ✓ Solid steel construction

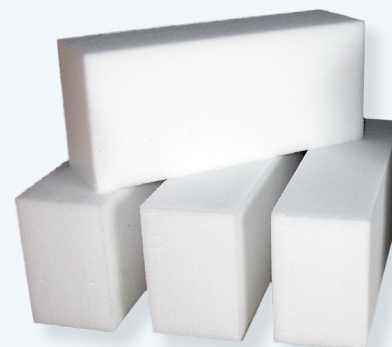

SPRINTER: UP AND RUNNING IN SECONDS
